

IGT Testing Systems

IGT Testing Services helps you conduct tests on your ink and paper so that you are aware of the quality of ink and paper you purchase or produce. We can conduct tests to check the gloss of an Ink, the roughness or ink absorption properties of your print substrate. These tests allow you to have a better understanding of the raw material properties you are working with or producing. Knowing the parameters of your ink and paper allows you to set standards for future references.

ARE YOU A PMAS MEMBER?

PMAS MEMBERS ARE ENTITLED TO THE BENEFITS BELOW :

- After the payment of the PMAS Annual Subscription fees, Members can enjoy IGT Testing Systems services free of charge up to the total subscription paid for that year.
- For example - If a company has paid annual subscription of \$300, they can use the testing charges up to \$300 without any charge for that year.
If the testing charges amounts to \$350, the Member will have to pay the balance of \$50.
- If Members have used up the IGT Testing Systems credits for the year, for subsequent tests the full IGT Testing Systems rates will apply.
- Members are encouraged to use the testing services provided by IGT Testing Systems.
- This is a service to our Members by PMAS and IGT Testing Systems.
